

# Frotend Developer

Michael Posada

Portfolio: <https://portfolio-michael-posadas-projects.vercel.app/>

## About me

I am a junior Frontend developer passionate about creating dynamic and attractive web interfaces. I have a strong background in technologies such as Next.js, React, and JavaScript. I consider myself a highly collaborative and autonomous person. I adapt easily to working in teams and strive to deliver high-quality results independently. I am also flexible and open to learning any technology being used in the project, even if I am not familiar with it.

## Languages

Spanish (native)

English B1+
